– The MAILING DATE of this communication appears on the cover sheet with the correspondence address –  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Election/Restrictions***

1. Applicant's election with traverse of Group II in the reply filed on 2-27-2006 is acknowledged. The traversal of the restriction between groups II and II is on the ground(s) that the prior office action did not "distinguish the utility" between the two groups. In reply thereto, the inventions of groups II and II are patentably distinct. The inventions are combinations that are separately usable. For example, the method of claim 10, routes on order in accordance with a set of conditional rules. In one embodiment, the rules can be that directed to the risk of the trade (e.g., stop loss provisions). This invention has separate utility from that of Group III which routes an order in accordance with an action list. The action list could read on a input from the exchange (e.g., margin requirements). Thus, the inventions have separate utility.

The requirement is still deemed proper and is therefore made FINAL.

2. This application contains claims 1-9 and 25-30 drawn to an invention nonelected with traverse in mailed 2-27-2006. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

***Claim Rejections - 35 USC § 112***

3. Claims 12 and 17-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The limitation "relationships represented by a set of codes" is indefinite. How does this limitation limit the conditional rules?

Art Unit: 3624

The invention of claims 17-20 are indefinite. The "discovery strategy" is indefinite as to its scope. That is, the general algorithm of a discovery strategy is unclear. The limitation of a market not subject to SEC regulation is indefinite in that SEC regulations are not fixed.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 10 rejected under 35 U.S.C. 102(e) as being anticipated by

PCT/US00/10803.

6. The reference teaches the limitations of claims 10 and 31 (page 4, lines 19+, figure 9). Further, it teaches the element of claim 11 (figure 9/704-706). It further teaches claim 12 to which the examiner reads "codes" to be rules and conditions of the exchanges. The examiner takes official notice that exchanges set forth rules and condition for front end software providers. It further teaches the invention of claim 13 and 14 (page 14, lines 19-31). The reference teaches the inventions of claims 17-20 including the discovery strategy and action strategy read which read on a the subject matter discussed at page 15, ll. 26-32.

***Conclusion***
